

The Wahoo Board of Public Works met in Special Session on January 8, 2018 in accordance with agenda posted at City Hall, Post Office, and First Bank of Nebraska with each board member being notified of the agenda prior to the meeting. Meeting was called to order by Chairman Al Grandgenett at 8:15 a.m. with the following board members present answering to roll call: Gerry Tyler, and Corky Forbes. Greg Kavan and Joel Woita were absent.

Gibney indicated the purpose of the special meeting was to discuss the impact of the recent spikes in natural gas rates on the open spot market, to report how these rates impacted the purchasing of natural gas, and to determine how these impacts should be mitigated with the users/rate payers in Wahoo.

Discussion was held on the situations leading to the spike in spot market gas rates, including declaration of "critical days" by the pipeline owner, the extreme cold weather across the entire nation, and the impact of the market speculators. Explanation was offered on the ways natural gas is purchased by Wahoo Utilities and the positive impact the diversification of purchasing had on this situation for Wahoo rate payers.

Gibney explained under the current rate structure, the entire price of the gas purchased would be passed directly on to the customer through the PGA rate calculation that is described in the rate ordinance passed by the Council, which changes each month to provide the adjustment for the cost of purchasing natural gas. Discussion was held on whether this should be subsidized by the use of cash reserves collected from natural gas rate payers. Concern was briefly expressed about showing favorable consideration to the natural gas rate payers over electric rate payers (since both experienced the extreme cold weather conditions), but it was agreed this was not an issue as the market fluctuation did not happen with electricity rates; it was only changes caused by cold weather, which also impacted natural gas rate payers.

Forbes expressed concern about the impact and hit to commercial rate payers, and Tyler expressed support for use of cash reserve to help subsidize the cost increase of gas caused by the spot market rates.

A motion was made by Tyler to apply \$100,000 of cash reserve from the natural gas fund to the bill to Clayton Energy for the month of December, and to bill the balance of the costs to the customers as provided in the rate ordinance. Motion seconded by Forbes. Roll call vote: Tyler, yes; Forbes, yes; and Grandgenett, yes. Kavan and Woita, absent and not voting. Motion carried.

It was discussed all eligible customers should be re-notified of the option for the level payment plan option. In addition, Gibney discussed the possibility of contractual agreements with commercial customers when necessary.

On a motion by Tyler and seconded by Forbes, the Board adjourned at 8:54 a.m.
