Participates in the construction, inspection, installation, maintenance, repair and operation of all facets pertaining to the city's electrical transmission and distribution system.

Participates in digging trenches and holes, setting poles, installing pole cross arms and fixtures.

Participates in various line maintenance activities, under supervision, including routing electrical lines and wires, line patrolling, insulator/arrestor replacement, hardware tightening, resetting oil circuit enclosures, fuse replacement, tree cutting/trimming, and basic troubleshooting techniques.

Responsible for changing circuits and transferring services.

Participates in various installation activities including the installation of meters and related measurement devices, house and commercial service drops, circuit regulators and controlling devices, capacitors, voltage regulators, instrument transformers and other line equipment.

Assists in ensuring that inspections are completed on circuit breakers and transformers, including checking bushings and connections, prior to installation.

Performs repair and replacement of street lights.

Administers first aid to injured persons; requests medical attention for individuals when needed.

Responsible for maintaining awareness of the direction of line feeds and the location of reclosing and switching devices.

Maintains work area in a clean and orderly condition, including snow removal.

Operates various departmental equipment, machinery, vehicles and hand, power and electric tools necessary in the performance of duties and according to established guidelines. Operates large trucks, Bucket Truck, loaders, backhoe, and other vehicles as needed.

Loads, unloads, and hauls materials and equipment to and from job sites.

Responsible for maintaining a safe work environment in the performance of duties.

Ensures the proper maintenance of tools and equipment by cleaning and checking tools and equipment after use.

Performs preventative maintenance on assigned vehicles and equipment; refers defects or needed repairs to supervisor.

Prepares and maintains records indicating materials used, man hours and maintenance activities performed.

Receives citizen complaints and handles situation and/or refers individual to supervisor for resolution.

Establishes and maintains positive public relations with the general public, other employees, other governmental agencies, power companies and municipal officials.

Performs duties as required.

QUALIFICATIONS

The following generally describes the knowledge and ability required to enter the job and/or be learned within a short period of time in order to successfully perform the assigned duties.

Knowledge of:

- Techniques, methods and practices used in electric transmission and distribution including construction, inspection, installation, maintenance, repair and operational activities.
- Operation of various heavy and light vehicles, machinery, equipment and tools pertaining to the construction, inspection, installation, maintenance and repair of an electric transmission and distribution system.
- First aid principles and the techniques of administering emergency medical aid including CPR and pole top resuscitation.
- Techniques used in emergency and evacuation procedures.
- Precautions necessary to work safely with and around electric distribution systems in order to promote a safe working environment.
- Geography of the city and the electric transmission and distribution system.
- City's responsibilities and ability to use independent judgement in the performance of duties.

Ability to:

- Learn and apply federal, state and local regulations, codes, standards and specifications pertaining to electric line construction, inspection, installation, maintenance and repair.
- React quickly and calmly in emergencies.
- Pole climb poles in all types of weather conditions.
- Work from a bucket truck, and in other precarious places.
- Accurately read and interpret line construction plans, technical sketches, blueprints and instructional manuals.
- Enforce ordinances and other regulations with firmness, tact and impartiality.

- Load and unload heavy equipment and tools.
- Deal with the general public in a courteous and tactful manner.
- Perform job duties efficiently while managing frequent interruptions.
- Plan and organize a personal work schedule, set priorities and meet deadlines.
- Understand and follow both oral and written instructions.
- Communicate effectively, verbally and in writing, in English.
- Establish and maintain effective working relationships with the general public, other employees and municipal officials.

PHYSICAL DEMANDS AND WORKING ENVIRONMENT

The conditions herein are representative of those that must be met by an employee to successfully perform the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential job functions.

Environment Work is generally performed outdoors and requires a considerable amount of physical activity including walking, standing, kneeling, bending, crouching, reaching, stooping and climbing. The incumbent must have the ability to transport themselves to and from various locations throughout the electric transmission and distribution system. Duties require the ability to tolerate an indoor and work environment which includes contact with dirt, dust, chemicals, cleaning solvents, bacteria, noise and inclement weather conditions.

Physical An incumbent must have the ability to lift up to 50 lbs. on a regular basis and must possess the coordination and manual dexterity necessary to climb poles, operate hand and power tools and equipment utilized in the upkeep, repair and maintenance tasks. Must also possess the ability to lift, carry, push and pull heavy equipment and tools. Work hours may occasionally be required in times of darkness. Vision abilities required include close vision, distance vision, color vision, depth perception, and the ability to adjust focus. The employee occasionally works near moving mechanical parts, in precarious places and is occasionally exposed to fumes or airborne particles, toxic chemicals, risk of electrical shock, and vibration. The noise level may be moderate to intense depending on activity performed.

EDUCATION AND EXPERIENCE

Any combination of education and experience that would likely provide the required knowledge and ability is qualifying. A typical way to obtain the knowledge and abilities would be:

Education/Training:

Graduation from high school or GED equivalent.

Must have two (2) years of experience on system and as a Third Class Lineman or an equivalent combination of education, training and experience. Must have completed the first 2 years of the Merchant Program

Additional Requirements:

Ability to report to the work site within a 15-minute response time, in normal weather conditions.

Must possess a CPR and pole top resuscitation certification.

Must possess a valid driver's license and a CDL.

Regular Full-Time Grade J
